DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 6, Applicant claims that "a second end of the egress pipe (12) extends downwardly into the reservoir (18)". However, it is clear from the drawings and specification that it is the connector pipe 14, not the egress pipe 12, which extends into the reservoir as claimed. Also, the claim language in claims 8 and 9 which describes the engagement of the egress pipe bottom 12B with itself does not make sense.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3751

Claims 1, 2, 5, and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Guerin.

The Guerin reference discloses a toilet liquid dispenser comprising an egress pipe 32, a connector pipe 38, an inlet pipe 20, a container 22, an egress pipe fastener 42, a holder 34, and a container fastener (fastener which attaches container 22 to floor of tank).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Lindauer reference discloses a similar toilet liquid dispenser.
